

LQ319(SPICA) INSTALLATION DRAFT

INSTALLATION GUIDE:

1. position the hanging point of the mirror, and mark the drilling hole making sure the two drilling holes are on the same level. Drill the holes, then insert the plastic sheath into the holes. Screw the wooden bracket of the mirror on the wall, then connect the electric line.
2. install the lights.
3. Hold the mirror in place, and hitch the mirror on the crossbeam of the wooden bracket; Adjust and position the mirror in the middle of the wooden bracket.
